

Agenda:

- Next event?
 - o Night Hike
 - o Dog Sledding
 - o Bird Walk
- Maintenance issues?
 - o Tree Planting Grant? – No
 - o Trees down?
- Ideas/comments/questions?
- Next meeting?

Wendy Whitney asked me via email to mention that she has spoken with Matt Perry from Spring Farm Cares about coming in June to present a bird talk and walk. She also mentioned that she can check in with a potential person to lead the walk and a possible source of snowshoes to borrow.

Also mentioned ideas for programs: winter survival, shelter building.

Night hike:

Winter full moons are Thursday, 16 January 2014, Saturday, 15 February 2014, Sunday, 16 March 2014

Night hike date: Saturday January 11th, 2014 at 7:00 PM

- Will this work for Wendy?

Dog sledding: sometime during Presidents Week

- Would be better for Katie if it wasn't on Feb 22 morning
- Madeline will talk to presenter about nailing down a date

Bird walk – tentative – June 29th?

Tree grant – no point applying, we only would be asking for 1 or 2 trees, not enough to write up grant application for. If town applies for a tree grant in the future and wants to include trees for Greenbelt pavilion area we would ask for 1 or 2 trees, Ginkgo or Black Walnut.

There are trees down across yellow trail, downhill from the junction of the blue and yellow trail.

Red Trail: cannot connect to canal trail, farm crops are planted over planned trail path. Are there any possible trail reroutes? Steve will talk to Jim Davis about rerouting trail if necessary to avoid planted fields.

Geoff Gates property is for sale. What will happen if new owner won't allow trails? Would it be possible for the town to consider buying the parcels with trail?
